FIG.27

Expected absorbance profiles  
with the absence and presence of partitioning  
medium: Base1:  $A_i=1$ ,  $A_u=0$ ,  $\log P=3.5$   
 $\Delta=3.5$ ,  $pK_a=10$   $ch=1$

FIG.29

Expected absorbance profiles  
with the absence and presence of partitioning  
medium: Acid1:  $A_i=1$ ,  $A_u=0.2$ ,  $\log P=3.5$   
 $\Delta=3.5$ ,  $pK_a=4$   $ch=-1$
